FINANCIAL AND COMMERCIAL

MONDAY, Feb. 12-6 P. M. On 'Change to-day wheat was dull and strong. The cotton market was unchanged, but not so firm. MONEY BASY.

The money market during the entire depression In stocks was active, owing to the changing of goans and ireshening of margins, but was fully supplied at 7 per cent. Late in the afternoon the closing dealings among the stock brokers were at 6 per cent and among the government bond holders at 5 a 6 per cent.

Commercial paper was quoted 7 a 8 per cent dis-count for prime double names. Foreign exchange was unchanged, and firm on

the basis of 109% a 109% for prime bankers' sixtymay sterling and 109% a 110 for sight bills.

GOVERNMENTS STRONG. The government list responded promptly to the more peaceful attitude of our relations with England as regards the Alabama claims and to a sharp inprovement in the Lon-idon quotations, which came 1/2 per cent better for the five-twenties, although a portion of this advance was lost later in the day, seemingly in sympathy with a similar decline in consols on the report in London that the Governor General of india had been assessinated in making a tour of the forts of that country. Our market kept all of its Improvement and left off firm as follows:—United States currency sixes, 11414 a 11434; do. sixes, 1881, registered, 114% a 114%; do. do., coupon, 115%; a 115%; do. five-twenties, registered, May and 10% a 110%; do. do., 1867, do. do., 111% a 111%; do. do., 1868, do. do., 112% a 112%; do. fives of 1881, funded, registered, 10814 & 10814; do. 10. do., coupon, 108¼ a 108½; do., ten-forties, registered, 107 a 107½; do. do., coupon, 110½ a 111½. GOLD LOWER-110% A 110%.

The gold market was steady most of the day at an average quotation of 110 1/4, although in the forencom ere were frequent sales at 110%, on the rise of our onds in London. The neavy imports make a steady emand for gold just now from the merchants, and orders on this account and a reaction in prices in London caused an advance to 110%. From this point there was a slow decline to 110%, on Washington telegram saying that General Butler h Washington telegrant saying the Wavs and cheered a resolution instructing the Wavs and Means Committee to report a bill allowing one-third of the customs duties on foreign imports to be paid n graenbacks. The subsidence of the "war fever" operated against the activity of the market, which, compared with last week, was quite dull. The chief fluctuations of the day are shown in the pable:—

New York Cen 7's, 1875, 102 bonds:-

THE NORTHERN PACIFIC RAILROAD BONDS. The London Times' money article of January 24

contains the following:—

with regard to the proposed Northern Pacific Railway, it appears that this great project of constructing a line from Lake Superfor right across the United States, to Pugers Sound on the Pacific Coast, south of Victoria, Vancouver's Island, has ately undergone a very thorough and searching investigation by a group of important financial houses on the Continent, at the head of which, it is undergoned, it is undergoned to the continent, at the head of which, it is undergood, is the Union Bank of Vienna, in consequence of proposais made to taem for blacing in Europe half the bonds of that line, to the amount of fifty millions of dollars, the other moiety being reserved for America. The capitalists in question having reserved the following gentlemen undertook the task:—MM. Federal, commercial and financial features, and the following gentlemen undertook the task:—MM. Polsch, Vice President of the Austriam Civil Engineers and Architects' Institute, Vienna; Regionalists, Berlim; Den Tex, Secretary of the Chamber of Commerce. Amsterdam; Grimbearg, Professor at the Polytechnic School, Vienna; Von Brotlescor at the Polyt contains the following:-

and it is said that, although one Commissioner gave a separate opinion unreservedly favorable to the proposed undertaking, the other four, is an elaborate joint report, express themselves strougly opposed to certain points connected with the financial part of it, which, they assert, must be essentially modified oefore the bonds can, in their opinion, be safely recommended to the European money markets. The Continental bankers having adopted the views of the majority of their Commission, the matter, so far as they are concerned, remains in suspense pending the action of the American promoters with respect to the objections raised; and until their agreement to make the necessary modifications is given the interesting and extensive report of the Commission will probably not be published, as it will, no doubt, be considered advisable, in the interests of all parties, to announce at the same time that the objections raised by the Commission have been satisfactorily met and removed.

STOCKS ACTIVE, WEAK AND LOWER.

The stock market opened firm, on the European

The stock market opened firm, on the European despatches in the morning papers exhibiting a more conciliatory tone in the latest London comments on the Alabama question and the further prospect of a peaceful adjustment of all the matters in dispute through the friendly interposition of Chancellor Bismarck. But at the first call a "break" in Union Pacific suddenly demoralized the market and started prices so rapidly on the downward turn that the more timid class of operators saw a panic impending and hastened to unburden themselves of such interest as they had in the market. Union Pacific fell to 33%, Ohio and Mississippi to 43%; Western Union to 69, Pacific Mail to 56%, Lake Shore to 89%, and Northwestern common to 73%. Hartem, which was so heavy Saturday, fell in this crisis to 107%, on the current impression of stockholders that the depression of the roadbed above the depot will be inevitably required of the company, to whom the alteration will be a cost of several millions of dollars. The only strength of the day was shown by Wabash, which was resolutely supported by Mr. Daniel Drew against all opposition and eventually advanced to 76%. The "break" In Union Pacific is attributed to sales by the so-called Vanderbilt party, who, having perfected an agreement by which Mr. Horace F. Clark is to be the choice of the Board for next President of the road, were no longer interested in holding their stock, and parted with it accordingly. After the close of banking hours, and subsequent to the re-laxation in the money market, there was a recovery of irregular extent from the lowest points of the day, Hariem touching 109 and Pacific Mail 57%, the latter on the adjournment and return of the investigating committee to Albany with what is regarded as a weak case against the "bull" clique.

INDIGNANT JEWELLERS IN COUNCIL.

Cook's Bill to Regulate the Manufacture and Sale of Jewelry and Silverware. About one hundred manufacturers and dealers in

jewelry and silverware met yesterday in parior No. 14 of the Astor House, to consider the bill of Assemblyman Cook regulating the manufacture and sale of gold and sliver ware. Mr. Tiffany, of Fifany & Co., was called to the chair, and David Dold acted as-secretary. The blil, a synopsis of which appeared in the Herald last week, was read, when several gentlemen denominated it a "striking measure." It was announced that Assembyman Pell was watching Mr. Cook, and would fight it before the Committee on Manufactures and Commerce, of which Mr. West is chairman, but Messrs. Charles Fellows, of Cooper, Fellows & Co.; James Matchester, of Manchester, Harriott & Co. and David Dodd, of Carter, Hawkins & Dodd, were appointed a committee to proceed to Albany and oppose the bil before the committee.

Mr. Manchester declared that the bill would work great damage to the trade of the city; the manufacturing business of the jeweilers and silverware men amounted to \$25,000,000 per year, and their productions sold in all the States. In the event of the passage of the bill New York firms would be compensed to remove to Jersey or Pennsylvania to manufacture sufficient to supply their customers from other States who require all kinds of goods, and consequently New York Would suffer very greatly.

The committee were empowered to make an asof gold and sliver ware. Mr. Tiffany, of Tiffany & greatly.

The committee were empowered to make an assessment pro rata for the expense of opposing the

THE FIFTEENTH WARD NUISANCES.

The respectable residents of the Fifteenth precinct bitterly of the annoyances they are sub jected to by street walkers, who, at all hours of the night, congregate in Thirteenth and Fourteenth streets and University piace and insult gentlemen streets and University piace and insult gentlemen who pass with their lady acquantances. On Thursday last the police arrested seven of these notorious nymphs du pare; but they were discharged by the magistrate, who reprimanded the officers and reflected upon Captain Evrae for permitting more discrepatable persons to run nouses in the ward. It is claimed for Captain Eyrae that the moment he discovers a panier house in his ward he breaks it up, and it is to be regretted that when he seeks to rid the streets of the brazen-faced creatures who annoy the well-disposed residents a police justice is found who fails to sustain firm.

THE PACIFIC MAIL INVESTIGATION.

Charges Against the President of the Company—The Complaining Petitioner Ex-amined—Adjourned to Albany.

The inquiry into the charges against the Presi-dent of the Pacific Mail Steamship Company was resumed yesterday morning by the Legislative Com-

mittee at the St. Nicholas Hotel.

Mr. Edward S. Chapin testified that he was a broker; that he bought Pacific Mail stock by order of his partner, Mr. Osborne, and understood it was for Mr. Stockwell; he did not know of any combina-

broker; that he bought Pacific Mail stock by order of his partner, Mr. Osborne, and understood it was for Ar. Stockwell; he did not know of any combination naving been formed by Mr. Stockwell and others in November to lock up currency; in December he counted currency at the offices, of the company; Mr. Stockwell and other officers of the bank were present; the sum amounted to between five and eight hundred thousand dollars; it was deposited in the bank; he believed he porrowed some money from the company the day upon which he counted the money; his operations in the matter had nothing to do with creating a siringency in the money market; he made the loan on the usual terms, paying seven per cent; Pacific Mail stock was not deposited as security.

Mr. Webster, counsel for Mr. Layman, expressed his surprise at a notice in some of the papers, to the effect that his client could not be found. He would state that Mr. Layman, would present himself before the committee in the course of the morning. Mr. Addison Cammack, formerly in business in the firm of Cammack & Chapin, confirmed the testimony of the previous witness.

Ar. Newton Layman subsequently came before the committee and testified that he purchased 5-9 shares in the Pacific Mail Steamship Company; he did not know what the stock cost and never saw the stock; did not pay any money for the shares; Mr. Smith's request he signed the petition to the Legislature; was in the employ of Smith, who was indebted to him; he meant Henry N, Smith, never purchased any stock before; had no conversation with Mr. Smith about the management of the adairs of the company; Mr. E. D, Webster drew up the petition to the Legislature for an investigation. The witness added that he was captain of a yacht of which Mr. Henry N. Smith was the owner, and that the amount due to him by Mr. Smith was between three hundred and four nuadred dollars.

The committee took a recess and resumed 'he investigation at two o'clock, when Henry N. Smith was examined. He said that Mr. Stockwell had told hi

THE CHAMBER OF COMMERCE.

The New Harbor Master Bill Adopted-A Committee to Convey it to Albany.

A special meeting of the Chamber of Commerce was held vesterday to hear the report of the com mittee appointed to draft a bill regulating the ap pointment of Harber Masiers. The bill was reported by C. H. Marshall, of the committee. It invests the appointing power in the five Pilot Commissioners, whose salary is \$1,000 per year. There are to be eleven Harbor Masters, appointed from full branch pilots or shipmasters holding a first class certificate. They are to hold office for one year and receive a salary of \$250 per month. The bill empowers the Commissioners to appoint a Capiain of the Port, at a salary of \$300 per month, who shall have the power to select headquarters and the badge to be worn by the Harbor Masters, and exercise supervision over them. The fees are the same as now exist. The bill provides for carrying any surplus from fees, after paying expenses, to the Pilot Commissioners' itune for widows and orphans. With these exceptions the leatures of the present law are retained. The duty of adjudicating mon charges and complaints is vested in the Pilot Commissioners. The Captain of the Port must be either a first class shipmaster or a full branch pilot. The Captain of the Port must be to give \$10,000 and the Harbor Masters \$2,500 bonds for the istainful discharge of their duties. The bill leaves the districts as they now exist in the act, without any changes. appointing power in the five Pilot Commissioners,

leaves the districts as they how exist in the act, without any changes.

The report was adopted and the committee was empowered to make an amendment to guard against a deficiency in the receipts. The channer, by a unanimous vote, authorized the committee to proceed to Albany and secure its passage by the Legislature, after which the Chamber listened to the reading of a paper by Colonel Gowan on finaling vessels over bars and other obstructions.

SMALLPOX IN A STREET CAR. NEW YORK, Feb. 10, 1872.

TO THE EDITOR OF THE HERALD:—

On my coming down town this morning on car No. 33 of the Broadway line, which was overcrowded in and outside with passengers, at the vicinity of Bleecker and Wooster streets all the passengers' attention was called to a man who had just entered with a worsted muffler around his face and his face in a fearful condition with large red spots out on it. Nearly all the passengers in the car became quite startled and left for front and rear platforms and pronounced it a regular case of smallpox, which it evidently was. Now, Mr. Editor, is it not a shame and disgrace for a railroad corporation to endanger the lives of passengers? On asking the conductor his reason for allowing such a passenger on his car, he made no reply, but walked away. Now, being convinced of the fact that you would do justice to the public in a case of this kind, I inform you of this fact, trusting you will bring it before the public so that they may evader riding in car No. 33 until the same is thoroughly fumigated. Yours most obediently, crowded in and outside with passengers, at the
